

## **Ground-Breaking For New Regional Water Reclamation Facility**

**Ground Breaking held for new Harold D. Thompson Regional Water Reclamation Facility**

A ground-breaking ceremony was recently conducted at the project site for the new Harold D. Thompson Regional Water Reclamation Facility east of Old Pueblo Road. The facility will serve the Jimmy Camp Creek basin and has an ultimate build out treatment capacity of 6.0 million gallons a day. It is dedicated to Harold D. Thompson for his many years of service in the sanitation districts and local community. Participating in the ground-breaking efforts were (l to r) Shelia Venezia (Vintage Development Co.) Richard Christian II, Jim Coke, Bobby Phillips, Jim Heckman, (District Manager; FSD and LFMSDD), Harold D. Thompson, Al Testa (District Manager; CCMD) Mike Cantin, Floyd Edwards, Shawn Eccles, Michael Terry, and Joan Treese (CCMD Board of Directors).
