- E. The Board discussed adding a dog park to the District and agreed to add a fenced in dog park; the dog park will start out small with little cost. The park will include two benches and a waste pick-up station. The park will need to be kept clean by the residents. Dr. Testa will complete a drawing for the best place to place the dog park so it can be built. If the park is used and kept clean by residents the Board will look at additional improvements. If the park is not maintained the District will have to remove the dog park.
- F. The Board discussed adding a softball field to the District. Dr. Testa would like to investigate partnering with the School District to save the District money. The Board will table this idea until the District has more funds and we hear back from the School District.
- G. The Board discussed replacement of park equipment for younger children. Dr. Testa projected it would cost up to \$20,000.00 to upgrade/fix. The Board agreed that we need to look at replacing equipment as long as it big enough for 10-15 kids to play on. Dr. Testa and Ms. Monroe will price out equipment for the next Board meeting with the direction to stay under \$50,000.00

The trail would be ten feet wide and graveled added so residents can walk, bike or run on it. Over time the District would like to add fitness stations to it.
