Are you one of the 53 homes in the district that is leaking water?

It is everyone's responsibility to conserve water. One of the most common culprits of water-waste is a leaky or running toilet. The district has seen as much as 180 gallons/hr lost from a single house's running toilet! That's 4,320 gallons in just 24 hours. Sprinkler systems can use over 200 gallons in just 15 minutes. Malfunctioning water softeners can also be water-wasters. If the listed water usage on your bill seems too high, you may have a leak or one of your systems needs adjustment.

Monitor your water usage by signing up for Eye On Water!

Reminder from Fire Chief Dave Lee:

El Paso County is currently on Stage II Fire Restrictions!

This is weather dependent and subject to change. Please visit our website's link to the El Paso County Sheriff's Office for specific restrictions during the current open burning fire status. The information is also posted at our office.
