SUMMER PROJECT TIME IS HERE. Click or Call Before you Dig! Practicing safe digging and excavation starts with contacting Colorado 811. Whether you're a homeowner wanting to refresh your yard or a professional excavator, you need to know what's below! Colorado 811 makes it easy for homeowners and professionals who are going to excavate do so safely by submitting a utility locating ticket request online, or call 811 before you dig. Either way, you can have the underground cables, wires and utilities marked before you begin excavating so that you are safe and do not destroy important underground facilities.
