Sewer Calculation

The sewer calculation period begins December 1<sup>st</sup>, 2024 through January 31<sup>st</sup>, 2025. The updated sewer rates based on the sewer calculation period will appear on the March 2025 water bill. Your water usage can be monitored at: [eyeonwater.com/ signup](http://eyeonwater.com/signup).

To minimize your sewer rate for the entire year, please be aware of the following procedure. The sewer base rate for each household is calculated by the average water usage during the months of December 2024 and January 2025. Consuming less water during these months will help decrease your sewer rate for the coming year. These are the months you typically use the least amount of water.

December Board Meeting
