

**RESOLUTION OF THE BOARD OF DIRECTORS OF
THE COLORADO CENTRE METROPOLITAN DISTRICT
REGARDING BASE MONTHLY SEWER USER VOLUME FOR NEW ACCOUNTS**

RESOLUTION No. 2026-03-18.1

Whereas, on December 10, 2025, The Board of Directors of Colorado Centre Metropolitan District approved and adopted Resolution 2025-12-10.2 as part of the 2026 budget process.

Whereas, Resolution 2025-12-10.2 established a base sewer volume of 5,400 gallons per month per single family unit was adopted for new owner or new renter occupant users until a sewage usage limit was established,

Whereas, in February 2026, the District Manager undertook a study of the average sewer usage per single family unit during the months of December and January when water consumption is at its minimum, and has determined that a new minimum sewage limit for accounts that have not established one should be established to reflect the District's current needs and the District's obligations to its owners

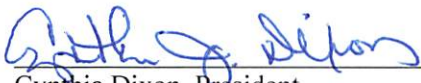

Whereas, the District desires to re-state the minimum sewer usage for a residential account at 2,950 gallons/month.

Now Therefore, it is hereby resolved as follows:

1. The minimum new user sewer usage volume shall be 2,950 gallons per month.
2. This action shall modify the previously adopted resolution 2025-12-10.2 – Enterprise Rates, Fees, Charges and Penalties for Fiscal Year 2026 to reflect this new limit.

The foregoing is a true copy of a Resolution duly adopted by the Board of Directors of the Colorado Centre Metropolitan District at a public meeting on the 18th day of March, 2026.

In Witness Whereof, the President and Secretary of Colorado Centre Metropolitan District have
erunto set their hands.

Cynthia Dixon, President

ATTEST:

Sylvia Eccles, Secretary
